BODY CONTOURING WITH 3D-LIPO

3D-lipo offers a powerful dimension in non-surgical fat removal, cellulite treatment and skin tightening. Perfect for targeting areas that are difficult to improve with diet and exercise; thighs, buttocks, tums, arms and chins.

It's the holy grail of non-surgical fat removal and body contouring. Pain free with fast results and no down time... a huge hit with A-listers who don't have time for recovery from surgery.

3D-lipo technology uses a combination of Cavitation (inch loss) and Cryolipolysis (fat freezing) to destroy fat cells, combined with Radio Frequency (skin tightening) and Vacuum Rolling (skin conditioning).

FAT FREEEZING TREATMENT

From £250

Recommended for treatment of stubborn fat pockets. A temperature of -6 degrees is applied to fat to eradicate cells. The treated cells begin a natural removal process that continues for up to three months with results of up to 40% permanent fat loss.

FAT REDUCTION, CONTOURING AND CELLULITE TREATMENT

From £100

Combining three 3D-lipo technologies to provide overall body sculpting, permanent fat loss and skin tightening, whilst also improving texture and reducing cellulite.

TREATMENT PLAN

POC

Course of treatment is determined during consultation and reassessed as treatments progress to ensure goals are achieved. Eight hour-long sessions, one week apart, are usually recommended. Results are often seen immediately.

SUNLESS TANNING

Get your glow on... it works wonders for the soul.

HAND APPLIED
